

Oxford College
Summer Quarter
June 23 - August 22
1975

GENERAL INFORMATION

1. Schedule of fees:

Tuition - \$575	Room - \$165 (double)
Board - \$242	\$215 (private)
\$48 per quarter hour for less than 12 hours.	

2. Housing: All summer quarter students should file an application for housing separate from the fall quarter application. Contact Mr. John Lovern, Director of Housing, Oxford College, Oxford, Ga. 30267.

3. Entering Freshmen: If you intend to begin your college career during summer quarter, so indicate on your application or write to Dr. Andrew Pate, Director of Admissions, Oxford College, Oxford, Ga. 30267 (404-786-7051). First quarter freshmen should plan to arrive at the college in time to meet their faculty advisor in the Student Center, Sunday, June 22, 2:00 p.m. At that time your faculty advisor will assist you with course selection and other orientation matters.

4. Transient and Transfer Students: A transient or transfer student should make application to the college by contacting the Director of Admissions. A transient student should request the appropriate official of his degree-granting institution to send written approval

of the courses to be taken to the Director of Admissions of Oxford College.

A transient or transfer student should report to the Registrar's Office on Monday, June 23, 9:00 a.m.

5. Oxford College Students: A presently enrolled student should register for summer quarter at Oxford during spring quarter, May 12-16. However, registration for summer may continue until opening of the quarter.

SPECIAL FRESHMEN PROGRAM

BIOLOGY INSTITUTE:

Biology 101-105

A special program has been designed for all entering freshmen who wish to strengthen their academic preparation. The program is particularly helpful for pre-medical, dental and nursing aspirants. A participant in this program would take English 104: Rhetoric and Composition; Mathematics 101: Trigonometry and Algebra (Pre-Calculus), and Chemistry 100: Introductory Chemistry.

English 104 should improve the grammar and writing skills necessary for college level work. *Chemistry 100* should be taken by those who have not had chemistry in high school or whose preparation is weak. *Math 101* should be taken by those who have had only two years of high school math and have not had trigonometry, or whose preparation is weak.

Taking this special program in the summer quarter permits students to receive greater personal attention than usual and to establish a more competitive foundation.

Dr. Homer Sharp

A student may take Biology 101 and 105 during an eight week summer institute. *Biology 101* is an introductory course and may be taken by a first quarter student; *Biology 105* may be taken subsequent to Biology 101. The institute is primarily designed for students who wish to concentrate in biology or in the biomedical sciences. Participants accelerate their college work and/or make their regular school year schedules more flexible. First quarter freshmen participants are strongly urged to take no additional courses except physical education.

ORGANIC CHEMISTRY INSTITUTE:

Chemistry 121-122

Dr. Carlton Adams

Chemistry 121 and 122 are offered as an institute for pre-medical and pre-dental students who desire to complete the two courses in eight weeks. Many students find the concentrated study of organic chemistry facilitates their learning. The class meets for eight hours of lecture and six hours of laboratory per week. Additional study sessions are held in which the class participates in learning activities directed by the instructor. Prerequisite: Chemistry 102.

SOCIAL SCIENCE SEMINAR

Ms. Maxine Atkinson, Dr. Neil Penn, Dr. Hoyt Oliver

Perspective on society and insights into personhood—a multi-dimensioned pattern of social science studies designed to develop a coherent picture of society in concentrated summer work. Open to both freshmen and sophomores. There are six courses offered as parts of the social science seminar.

- a. Two courses will meet for one hour daily during the full eight week term: Political Science 120: National Politics in the U.S.; History 255: The South in American History (Penn).
- b. Two courses will meet for four hours on each of two afternoons during the first four week term: Psychology 100: Introductory General Psychology (Oliver); Sociology 101: Introduction to Sociology (Atkinson).
- c. Two advanced courses will meet for four hours on each of two afternoons during the second four-week term: Psychology 209: Psychology of Adolescence (Oliver, prerequisite—Psychology 100 or 101); Sociology 213: Sociology of the Family (Atkinson, prerequisite—Sociology 101).

Colloquia, speakers and special events will be shared by all participants in the seminar throughout the summer. Students may take as many as four courses, for twenty hours credit (this is not an overload), during the eight week summer quarter. However, it is suggested that entering freshmen take no more than fifteen hours (3

courses)—one eight week course, one four week afternoon course, and its afternoon sequel during the second four weeks.

LANGUAGE INSTITUTE - FRENCH

M. Francois Bardy

Entering students who have less than two years of a foreign language in high school are required to complete a foreign language at the 103 level at Oxford College (1 year). To facilitate the completion of this requirement the college offers, in its summer quarter, a language institute designed to allow students to complete the equivalent of one year of language study. Attendance at the institute may be particularly important for pre-professional students whose curriculum is highly structured.

SUMMER QUARTER 1975 - SCHEDULE OF CLASSES

8 Week Courses

				ROOM
Chemistry 100.	09a: Lab B Tuesday	Introduction to Chemistry	Autry	P 212 P 207
English 104.	10a:	Rhetoric and Composition	Mack	Lang. 106
English 111.	09a:	Introduction to Fiction	Mack	Lang. 106
French Institute	8-11:30	(French 101, 102, 103)	Bardy	Lang. 101
History 255.	10a:	The South in American History	Penn	P 107
Math. 100.	09a:	Introduction to Mathematical Concepts	Tredway	Lang. 201
Math. 101.	08a:	Trigonometry and Algebra	Tredway	Lang. 201
Math. 171.	11a:	Calculus and Analytic Geometry I	Tredway	Lang. 201
P.E. 103.	1:30-3:00 (M,W):	Drownproofing	Burnett	Pool
P.E. 202.	2:00-3:30 (T,Th):	Introduction to Tennis	Burnett	TC
P.E. 212.	3:30-5:00 (T,Th):	Intermediate Tennis	Burnett	TC
P.E. 214.	11-12:30 (M,W):	Personal Fitness	Burnett	G 200
Pol. Sci. 120.	08a:	National Politics in the U.S.	Penn	P 107
Religion 209.	7:30-9:30 p.m. (M,W):	Hinduism	Mack	P 126

4 Week Courses

First Term - June 23 - July 22

Biology 101.	8-11:00:	Introduction to Biology	Sharp	P 126
Chemistry 121.	8-11:00:	Introduction to Organic Chemistry I	Adams	P 214
Psychology 100.	1-5:00 (M,W):	General Psychology	Oliver	Lang. 204
Sociology 101.	1-5:00 (T,Th):	Introduction to Sociology	Atkinson	Lang. 103

Second Term - July 23-August 22

Biology 105.	8-11:00:	Vertebrate Biology	Sharp	P 126
Chemistry 122.	8-11:00:	Introduction to Organic Chemistry II	Adams	P 214
Psychology 209.	1-5:00 (M,W):	Psychology of Adolescence	Oliver	Lang. 204
Sociology 213.	1-5:00 (T,Th):	Sociology-Family	Atkinson	Lang. 103

EMORY OFF-CAMPUS AND ABROAD PROGRAMS

Application for any of the programs listed below should be made through Miss Emily Porter, Registrar, Oxford College. A deposit of \$300 will be due by April 1, 1975, to assure a place in the program. Applications and deposits will be accepted after that date only if there is space available. The remaining program fee will be due May 1, 1975. The fee includes airfare, room, board and tuition. For fuller descriptions of the programs see Miss Porter or your faculty advisor.
